

Aditya Khadse

+1 (571) 251-6393 | adikhadase044@gmail.com | linkedin.com/akhadse/ | Fairfax, VA

Professional Summary

Data Analytics Specialist with 2+ years of experience in bridging the gap between **Raw Data and Business Intelligence**. Expert in designing **Data Models and Automated ETL Pipelines** using **SQL, Python, and PySpark** to mine enterprise systems for actionable insights. Proven track record in developing **Data Quality Metrics** and high-impact visualizations in **Power BI and Tableau** to optimize operational and supply chain workflows. Skilled in managing **Metadata Inventories** and database environments within **Snowflake and SQL Server** to drive data-driven decision making and process excellence.

Experience

- | | |
|--|--------------------------------------|
| P360 Solutions
<i>Software Engineer (Data Analyst)</i> | May 2022 – May 2024
Mumbai, India |
| <ul style="list-style-type: none">Developed and maintained Power BI dashboards to visualize Pharmaceutical commercial data and software metrics, providing actionable insights that led to a 20% improvement in system efficiency.Engineered automated data reporting solutions using SQL Server to transform raw Life Sciences system logs into structured datasets, reducing manual reporting time by 30%.Collaborated with 3 departments to define Healthcare Data Quality Metrics and metadata standards, utilizing Azure DevOps to resolve 95% of data integrity issues before production.Designed and implemented SQL-based data models for enterprise Pharma applications, enhancing data retrieval speeds by 25% and supporting cross-functional business intelligence needs.Facilitated technical training sessions for end-users on new reporting tools and dashboards, ensuring a 95% user adoption rate and improved data literacy across teams. | |
| Tejgyan Global Foundation (Supported by TCS)
<i>Software Engineering Intern (Data & Mobile)</i> | Jan 2021 – Sep 2021
Remote |
| <ul style="list-style-type: none">Architected SQLite data synchronization for mobile metadata and managed API integrations for global content delivery. | |
| A1 Robotics and Automation
<i>Web Development Intern (Infrastructure)</i> | May 2020 – Jun 2020
Remote |
| <ul style="list-style-type: none">Engineered full-stack infrastructure and managed DNS/Zoho Mail migrations with 100% data integrity. | |

Education

- | | |
|--|---|
| George Mason University
<i>MS in Data Analytics Engineering (GPA: 3.93)</i> | August 2024 – May 2026
Fairfax, VA |
| Yeshwantrao Chavan College of Engineering
<i>BS in Computer Technology (CGPA: 8.86/10)</i> | June 2018 – June 2022
Maharashtra, India |

Projects

- | | |
|---|---------------------|
| Pearmund Cellars: Production Strategy & Forecasting <i>Python, SQL, Time-Series</i> | Jan 2026 – May 2026 |
| <ul style="list-style-type: none">Conducting Exploratory Data Analysis (EDA) on historical wine production datasets to identify seasonal trends, supply chain bottlenecks, and production variances for Pearmund Cellars.Developing Decision Support Models using SARIMA to forecast inventory needs, aiming to optimize production scheduling and reduce overstock costs.Translating complex statistical outputs into Actionable Business Insights and visualizations for stakeholders to improve data-driven procurement and resource allocation. | |
| Financial Risk Analytics <i>Power BI, SQL Server, ETL</i> | |
| <ul style="list-style-type: none">Architected ETL pipelines via Power BI Dataflows to process 1M+ financial records, implementing a Relational Data Model in SQL Server for YoY Time-Series Analysis and reporting. | |
| Healthcare Intelligence <i>Snowflake, SQL, Data Warehousing</i> | |
| <ul style="list-style-type: none">Built a high-performance Clinical Dashboard in Snowflake using Complex Joins and Window Functions; implemented Data Validation scripts to ensure 100% consistency across electronic health records. | |

Technical Skills

Analytics & Tools: Power BI, Tableau, Git, Jira, Azure DevOps, Agile Methodology
Data Engineering: ETL/ELT, Data Pipelines, Data Modeling, Data Warehousing, Medallion Architecture
Languages: SQL, Python, R, PySpark
Cloud & Databases: Azure (Data Factory, Synapse), Snowflake, MS SQL Server, MySQL, Databricks
Certifications: Azure Data Fundamentals, Azure AI Fundamentals, AWS Academy Data Engineering
