Professional Summary

Data Analyst with 3+ years turning raw data into business insights. Builds data models and automated **ETL pipelines** with **SQL**, **Python** and **Azure Data Factory**, performs **data cleaning**, **data validation** and **statistical analysis**, and delivers **KPI** dashboards and **data visualizations** in **Power BI** for stakeholders in pharma, healthcare and sports.

Professional Experience

Scholar Athletes Sports Network Sep 2026 – Present
Sports Data Analyst (Internship) | **Python, pandas, openpyxl, SQL, Excel** *Washington, DC (Remote)*

- Audit **data sources** for 30 DMV high school programs, flagging 16 outdated sites and conflicting coach records.
- Co-design the **data pipeline** for the new Coaches Connection tool, from coach submissions through verification to content, defining submission fields, **ID standards** and **data validation** checks.
- Build **Python (pandas, openpyxl)** scripts loading weekly game results into **Excel pivot tables**.
- Perform **data cleaning** and validation in **SQL**, catching duplicates, missing fields and inconsistent stats.
- Analyze weekly game trends to surface **insights** for the DMV Gridiron and Live From The Pitch brands.

P360 Solutions May 2022 – May 2024
Data Analyst | **Power BI, DAX, SQL Server, Azure Data Factory, Azure DevOps, Excel** *Mumbai, India*

- Partnered with **stakeholders** on **KPIs** and built **Power BI (DAX)** dashboards tracking pharma sales.
- Built **Azure Data Factory** pipelines loading life sciences logs into **SQL Server**, cutting manual reporting 30%.
- Set **data quality** metrics with **cross-functional** QA, dev and Salesforce teams, fixing 95% of issues pre-release.
- Designed **SQL** data models and **benchmarked stored procedures**, speeding data retrieval 25%.
- Delivered **ad hoc analysis** for stakeholders, summarizing cleaned pharma data in **Excel pivot tables**.

Tejgyan Global Foundation (Supported by TCS) Jan 2021 – Sep 2021
Software Engineering Intern (Data & Mobile) | **SQLite, APIs, Jira, Git** *Remote*

- Designed the **SQLite** schema for app content metadata and managed **API integrations** for content delivery.
- Performed **data cleaning** on content metadata, resolving duplicates, missing fields and inconsistent categories.
- Debugged **data sync** issues causing missing or incorrect content, **validating** each fix through testing.
- Set up **usage analytics tracking** to capture which content users opened, informing content priorities.
- Worked in **Agile** sprints with TCS mentors, tracking tasks on **Jira** and managing code with **Git**.

A1 Robotic & Automation Jan 2020 – Jan 2021
Data Analyst Intern | **SQL Server, Python, pandas, Excel, Zoho Mail** *Remote*

- Designed a normalized **SQL Server** schema for the spare-parts catalog with **primary and foreign keys**.
- Built **Python (pandas)** scripts to clean and bulk-load product and client data from CSV/Excel into SQL Server.
- Wrote **SQL data validation** queries (row counts, joins, duplicate checks) to confirm every record loaded correctly.
- Executed the **Zoho Mail/DNS** migration with full backups and record reconciliation for **100% data integrity**.
- Analyzed catalog and operational data in **Excel**, building charts and summary tables for team progress reports.

Technical Skills

Analytics & Tools: Power BI (DAX), Tableau, Excel (Pivot Tables), Git, Jira, Azure DevOps, Agile
Data Analysis: Data Cleaning, Data Validation, Statistical Analysis, Data Visualization, KPI Reporting, EDA
Data Engineering: ETL/ELT, Data Pipelines, Data Modeling, Data Warehousing, Medallion Architecture
Languages: SQL, Python (pandas, openpyxl), R, PySpark
Cloud & Databases: Azure Data Factory, MS SQL Server, MySQL, Databricks
Certifications: Azure Data Fundamentals, Azure AI Fundamentals, AWS Academy Data Engineering

Projects

Pearmund Cellars: Production Forecasting | *Python, SQL, SARIMA* Jan 2026 – May 2026
Statistical analysis, EDA and **SARIMA** forecasts on historical wine production data to guide scheduling.

Healthcare Intelligence | *Snowflake, SQL* Dec 2025 – Jan 2026
Clinical dashboard in **Snowflake** using window functions, with validation scripts for 100% EHR consistency.

Financial Risk Analytics | *Power BI, SQL Server, ETL* Nov 2025 – Dec 2025
ETL pipelines in Power BI Dataflows over 1M+ records, with a relational SQL Server model for YoY analysis.

Education

George Mason University – MS in Data Analytics Engineering (GPA: 3.93) Aug 2024 – May 2026

Yeshwantrao Chavan College of Engineering – BE in Computer Technology (CGPA: 8.86/10) Jun 2018 – Jun 2022
